Technology

The range of subjects in technical education has changed significantly over the last two decades and now includes craft, design, engineering and graphics.

The components are:
- **Technological developments in society**
- **ICT to enhance learning**
- **Business contexts for developing technological skills and knowledge**
- **Computing science contexts for developing technological skills and knowledge**
- **Food and textiles contexts for developing technological skills and knowledge**

ICT is used to enhance Teaching and Learning across all curricular areas. Classes are equipped with a Smartboard and computers. Pupils are encouraged to develop their skills and gain confidence in using new technologies.

- Craft, design, engineering and graphics contexts for developing technological skills and knowledge
