Thursday 14th January

Literacy:

Word Families

Today we are going to be learning about words from the 'ag' word family. Words in the ag word family all end in a g. Follow the link to help you learn more about this.

[-ag Word Family and Blending - Google Slides - YouTube](#)

Now 'have a go' at sounding out and reading each word.

bag	nag	rag
sag	tag	wag

Can you 'have a go' at writing each word and then draw a picture for each word.

Challenge – Can you think of any other words from this family?

Can you use 1 of your words in a sentence?

Maybe someone at home could help you to 'have a go' at writing this sentence just like we do in class.

Handwriting

It is really important that we practise the correct letter formation and orientation. Today we are going to focus on another of our 'curly caterpillar' letters the letter 'a'.

Remember, to write this letter, we **start at the top, go round and back to the top, straight back down and flick.**

Can you have a go at writing this in the air with your finger first, just like we do in class. 😊

Now let's practise some more, here are some ideas you might want to try.

Write your letter 10 times in your jotter.

c c c c c
c c c c c
or
c c c c c
c c c c c

Make your letter using play dough.

Lay out some shaving foam/salt/uncooked rice/glitter and get writing!

Go outside and write in the mud/snow/ice.

Go outside and make your letter using stones (or anything you can find)

Common Words

Continue to practise these five common words. You can read them, find them in a book or write them.

the	in	he	with	be
-----	----	----	------	----

Numeracy:

Warm -up

Can someone at home ask you the following questions.

What number comes:-

Before 7	After 9	Before 6
After 12	Before 15	After 17

Can you use your flashcards and practise counting forwards and backwards?

- Put your numbers in the correct order from 0 – 5
- Put your numbers in the correct order from 10 – 0
- Put your numbers in order from 10 – 20
- Put your numbers in order from 20 – 10 etc.

You can do this starting and ending on any given number!

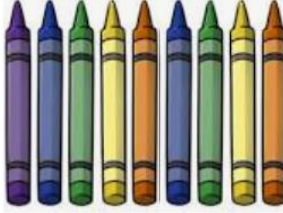

Addition Sums

Can you have a go at completing the following addition sums. We have created another chilli challenge for you. The green sums are the simplest and the hotter the chilli gets the harder the sums get. Choose a level you are comfortable starting with and see how you get on. You can stop after 1 level is complete, you can move onto the next level or you can even try them all! It's your choice! Good Luck!

Mild 	Spicy  	Hot!!  
$2 + 1 =$	$6 + 4 =$	$10 + 7 =$
$2 + 2 =$	$8 + 5 =$	$12 + 5 =$
$3 + 1 =$	$7 + 6 =$	$11 + 3 =$
$4 + 1 =$	$8 + 8 =$	$13 + 4 =$
$5 + 0 =$	$9 + 6 =$	$14 + 7 =$

In school we would usually write each sum down and use counters to help us solve the answers. You might want to think about using something in your house e.g. dry pasta shells, small toys, crayons etc. to help you complete this challenge.

For example.

$$5 + 4 = 9$$

Health and Wellbeing:

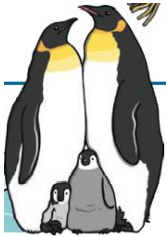

- In school we have had lots of fun taking part in some Just Dance together and Miss Hughes and Mrs Lidstone are always so impressed with all your dance moves. Can you choose some songs to dance along to with someone at home? If you follow this link you will find some songs to choose from. Have Fun and make sure the adults at home are joining in too!

[Just Dance 2020 \(Unlimited\) | I Gotta Feeling \(Alternate\) - Kids Mode - YouTube](#)

- We are in the middle of winter and it is very cold outside. But, there are lots of animals around the world that like to live in the cold. Can you draw a picture of an animal that lives in a cold place and find out **2 facts** about them? Some animals you might want to think about could be:-

Penguins

Polar Bears

Reindeer

You can share your picture and facts with us on Seesaw or take a photograph and email us your work. 😊
