Science: Forces – Paper Aeroplane

Today, you'll be investigating factors that help airplanes stay lifted and reach their destination. Although we won't be designing an actual plane, we'll be using the same concepts to build a paper airplane.

Instructions: Ask an adult to help you make a paper aeroplane or watch <https://www.youtube.com/watch?v=r9ReNKZiZNc>

Test your plane to see how far it flies. Remember to post your video on Seesaw.
