# Health and Wellbeing: Resilience Alphabet - L for Laughter

Over the next few weeks we are going to look at each letter in turn, trying to build up our resilience skills.  
Today's letter is:

## L is for Laughter

Laughter is a great way to make us feel good and makes lots of muscles in our faces move. I wonder when you last had a great big laugh? We know that when one person laughs out loud, it sends messages to the brains of the people around us and they sometimes start laughing too!

**Think:** What is the funniest thing that has ever happened to you that made you laugh?

**Say:** "Today is my day for finding something to laugh about."

**Do:**

- Ask someone to tell you their favourite joke
- Write some jokes or a funny story today about something that makes you smile
- Tell a joke or funny story to someone else

Follow the Instructions above.

Record yourself telling a joke on Seesaw. Who can make me laugh the most?

### Daily Check In

How are you feeling today?

Show me how you feel by circling the Emoji that matches your mood. Tell me how you feel and why. Then set a goal for today - you can let me know at the end of the day if you achieved it and how this made you feel!

**AIR HUGS!**

How will you be kind today?

### Try this Mindful Exercise!

#### Belly Breaths

1. Lie flat on the floor.
2. Place your hands on your belly.
3. As you breathe in, notice your hands moving up with your stomach.
4. As you breathe out, notice your hands moving down.
5. Repeat, noticing how your belly moves up and down.

Draw a picture of someone being kind.

# An Activity Chosen by YOU!

Someone had asked if we could learn about William Shakespeare. Follow the link below to learn about who William Shakespeare was:

<https://learnenglishkids.britishcouncil.org/short-stories/william-shakespeare>

Then complete the three tasks below:

Watch the story and put the sentences in order.

	He helped build a new theatre called The Globe, which opened in 1599.
	Three years later he married Anne Hathaway and they had three children.
1	William Shakespeare was born in 1564 in Stratford-upon-Avon, in England.
	He died when he was 52 on 23 April 1616.
	He worked in London as an actor and then started writing plays.
	William left school when he was 14 or 15.
	He wrote at least 38 plays, and was rich and famous.
	Sometime before 1590 he left Stratford and went to London.

Watch the story. Circle the correct answer.

## Art:

### Draw with Rob

Rob Biddulph, an illustrator, will be posting a brand new episode of #DrawWithRob every Saturday, and one from the archive every Tuesday and Thursday at 10am. Also, every single episode is right there on his website (<http://www.robbiddulph.com/draw-with-rob>) for you and your artists to watch for free whenever you like.

### Daily Doodles

Watch this video explaining Cubism art:

<https://www.youtube.com/watch?v=V6ZT1705Slw>

Then look at the grid below and select a famous artist who painted in a cubism style. Try to create an image in their style - you could copy one of their pieces of work or create an original. You could use pens, pencils, crayons, paint... whatever!

# DOODLE

Have a Google then start a Doodle in the style of a famous Cubist artist.

Pablo Picasso 1881 - 1973	Albert Gleizes 1881 - 1953	Georges Braque 1882 - 1963	Jean Metzinger 1883 - 1956	Juan Gris 1887 - 1927

Upload your instrument video to Seesaw!

## RME

### Christian festival of Easter

Look on the Home Learning Section of the Sandwood Primary School website to find this week's RME lesson on Easter.

# British Science Week

As it is British Science week this week, there will be a science experiment every day! Today's Science Experiment is below:

## Fireworks in a Glass

### You Will Need

- Warm Water
- Oil\*
- A Tall Glass
- Food Colouring

\* Please dispose of oil safely and responsibly.

This is a very cool, simple and fun experiment, and also completely safe, just don't drink the water!

### Method

- 1 Fill the tall glass with warm water.
- 2 Pour a small amount of oil into another container and add a few drops of food colouring.
- 3 Give it a good stir, if it doesn't mix, add a bit of water.
- 4 Pour the food colouring and oil mixture into the warm water and watch the fireworks!

### The Science Bit

Oil and water don't mix. Also oil is less dense than water (meaning there is less of it in the same volume) and therefore floats on top of water in a nice layer. The food colouring we used was water based and therefore does not mix with the oil, instead it sinks through the oil into the water below. Since the addition of the colouring makes the food colouring heavier than the water, it sinks to the bottom leaving trails (resembling fireworks) as some of the colour diffuses into the water.

## Additional Activities (Optional):

- Keep up to date with news around the world by watching Newsround each day.

<https://www.bbc.co.uk/newsround>

Additional activity: Write a report or take some notes about what you have learned.

- BBC BITEZISE: Click start a lesson, Select Year 3/P4, Select your chosen curricular area and then your chosen topic.
