

## Division

### Written Method

Answer these questions showing a **decimal remainder**.

$$286 \div 4$$

$$729 \div 6$$

$$256 \div 5$$

$$703 \div 4$$

$$513 \div 4$$

$$160 \div 3$$

$$325 \div 2$$

$$57 \div 8$$

$$701 \div 4$$

$$253 \div 4$$

Scan this QR Code to watch a video which will help you. This will show you how to answer the questions with a decimal remainder and we will discuss this on Teams at 12.30.

#### Extension:

If you finish all the questions above, have a go at these:

$$639 \div 27$$

$$324 \div 54$$

$$864 \div 27$$

$$672 \div 56$$

*How can you simplify these?*
