

L.I. I am learning to multiply a two digit number by a one digit number.

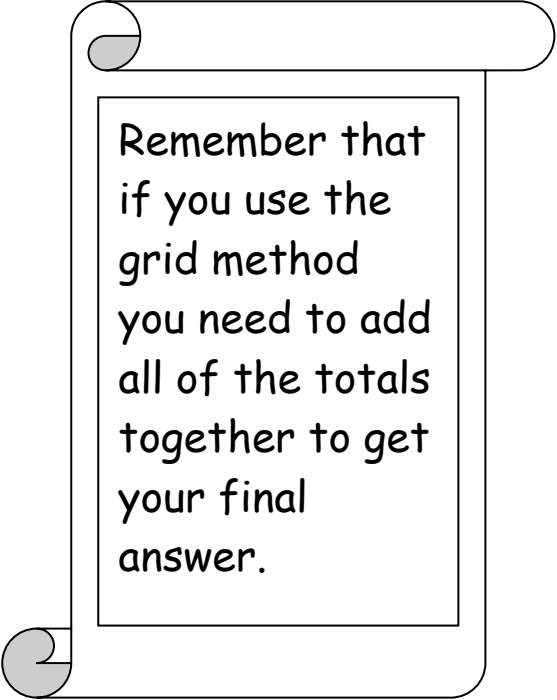

Multiplications

You can use whichever method you find easiest to find the answers to these questions. Example: $24 \times 7 =$

$$\begin{array}{r} 24 \\ \times 7 \\ \hline \\ \hline \end{array}$$

x	20	4
7		

1. $33 \times 7 =$
2. $43 \times 6 =$
3. $53 \times 4 =$
4. $62 \times 2 =$
5. $38 \times 9 =$
6. $21 \times 3 =$
7. $18 \times 6 =$
8. $54 \times 8 =$
9. $82 \times 7 =$
10. $71 \times 3 =$
11. $15 \times 9 =$
12. $92 \times 6 =$
13. $25 \times 7 =$
14. $39 \times 8 =$
15. $48 \times 5 =$
16. $27 \times 6 =$
17. $76 \times 4 =$
18. $92 \times 3 =$
19. $88 \times 6 =$
20. $66 \times 3 =$

Remember that if you use the grid method you need to add all of the totals together to get your final answer.
