

Link Between Compass Points and Angles

Fill in the blanks on this compass rose. From the outside to the inside compass: direction names, compass direction abbreviations and number of degrees.

Using Paragraphs

The following text does not have paragraphs to sort the ideas. Can you identify where the topic changes?

Frogs are amphibians, which mean that they can live both on land and in the water. They are cold-blooded which means that their bodies are the same temperature as the air. When they get cold, they need to lie in the sun to warm up and when they get too warm, they need to go into the water or find a shady place to cool down. Frogs are found all over the world. They are found in every climate and on all continents except Antarctica. They are often found near any source of fresh water but they prefer water which does not move very quickly. Smaller frogs eat flies and insects, especially crickets. Larger frogs can eat mice! Frogs do not need to drink because they absorb water through their skin.

How many paragraphs could we split this piece of text into?

8. Write directions from somewhere on the map to another place.

Degrees of Turn Compass Rose

- Cut both circles.
- Fix the circles together by pushing a brad through the center.
- Use your compass to answer the questions.

RME

Passover takes place in Spring time and is very important to Jewish families.

Families spring clean the house and remove any Chametz (foods with leavening agents that are forbidden on the Jewish holiday of Passover) from their homes.

Write a list of chores that you think a Jewish family would carry out to prepare for the festival of Passover.
