

LI – I am learning to compare fractions.

# Compare Fractions

Use the symbols  $<$   $>$  or  $=$  to compare these fractions. You may need to rewrite the fractions with the same denominator.

1.  $\frac{1}{2}$        $\frac{1}{3}$   
 $\frac{\quad}{6}$        $\frac{\quad}{6}$

2.  $\frac{3}{4}$        $\frac{3}{5}$   
 $\frac{\quad}{20}$        $\frac{\quad}{20}$

3.  $\frac{1}{5}$        $\frac{2}{10}$   
 $\frac{\quad}{10}$        $\frac{\quad}{10}$

4.  $\frac{2}{3}$        $\frac{5}{8}$   
 $\frac{\quad}{24}$        $\frac{\quad}{24}$

5.  $\frac{1}{2}$        $\frac{4}{9}$   
 $\frac{\quad}{18}$        $\frac{\quad}{18}$

6.  $\frac{6}{7}$        $\frac{18}{21}$   
 $\frac{\quad}{21}$        $\frac{\quad}{21}$

7.  $\frac{15}{8}$        $\frac{11}{6}$   
 $\frac{\quad}{48}$        $\frac{\quad}{48}$

8.  $\frac{4}{10}$        $\frac{1}{3}$   
 $\frac{\quad}{30}$        $\frac{\quad}{30}$

9.  $\frac{6}{9}$        $\frac{2}{3}$   
 $\frac{\quad}{9}$        $\frac{\quad}{9}$

10.  $\frac{19}{12}$        $\frac{5}{3}$   
 $\frac{\quad}{12}$        $\frac{\quad}{12}$
